Effective 2023**The following circumstances will void the warranty:**

1. Damage caused by failure to comply with the installation, finishing or maintenance instructions provided by Carden Door Company or the manufacturer of a finish including, but not limited to, the failure to protect and seal all (6) exposed surfaces of an unfinished door. All unfinished surfaces must be sealed with an exterior quality spar varnish before being exposed to any exterior environment and applied with a minimum of 4 coats of finish!

Notations and recommendations:

1. Wood Doors should be installed in an area with at least a 3' overhang.
2. Doors installed in applications with direct sunlight and the elements will require more frequent maintenance of the topcoat.
3. Water should not be allowed to pool or stand around the base of the door. This is a construction or engineering defect and will not be covered under this warranty.
4. Wood Doors should not be installed where environmental conditions will result in the door being exposed to intense vibrations, high moisture, salt, or extreme variations in temperatures. Installation of doors in these environments is considered a misuse or abuse of the door and will result in voiding the warranty.
5. Wood Doors should be lightly sanded to remove handling marks and residue such as caulking from the manufacturing process.
